

# DIESELMANOR™

March 31, 2016

Dear UPS Management,

This letter is to inform you that we, DieselManor, Inc. will be suspending the use of UPS for our shipping carrier effective immediately.

DieselManor is a Christian based company and we conduct ourselves in accordance with the Holy Bible. In good conscience we can no longer stand idly by and utilize your services when you continually interject your anti-Christian beliefs in areas that are in stark contrast with our faith. You have targeted the Boy Scouts of America for their wanting to prevent homosexual troop leaders from having access to the young boys under their charge. You have also just recently interjected your pro-homosexual agenda in the Georgia State Legislature and are putting pressure on Gov. Nathan Deal, threatening him economically if he doesn't veto the current religious freedom bill that is currently being debated in his state.

This is the Unites States of America, and you have every right to conduct your operations according to your beliefs and policies, regardless of what other think. For far too long the Christian community has remained silent, in hopes that this militant anti-Christian agenda would eventually pass. Unfortunately, by our remaining silent, this has only bolstered the effort of those who want there to be no God in the Unites States. Therefore, I too will conduct *my business* operations in accordance with *my beliefs*. We, DieselManor, Inc., will no longer be using UPS for our shipping service. We also have notified all of our vendors, suppliers and distributors that ship product to us, and drop ship to our customers, to utilize another shipping carrier. In other words - You're fired!

Please notify us on how you would like us to return the two label printers of yours that we have.

Sincerely,

David S. Murphy  
President – DieselManor, Inc.
